Description:

The Jesters Club, together with Southeastern Squash and Dunlop, are supporting the development of college squash by offering a terrific venue for established, emerging and club teams. This fifth annual event is intended to support Collegiate Squash Association play in the Southeast, thereby creating exposure to intercollegiate squash that will foster excitement around establishing college clubs and supporting emerging teams in the Atlanta area that can grow to compete in the CSA.

Atlanta is known both for the quality of its squash and the city's hospitality. These squash venues hosted the U.S. Nationals in 2008. Average January highs are 52°.
